*Integrating Inquiry and Literacy in the Elementary Science Classroom*

for Grades K-2 Educators

Online Modules
January 8th - March 7th

Virtual Sessions
January 16th, 30th, & February 13th
Wade Institute for Science Education
2021 Remote Professional Development Institute

Integrating Inquiry and Literacy in the Elementary Science Classroom for Grades K-2 Educators

Join the Wade Institute for Science Education for an exciting Professional Development Institute specially designed for K-2 educators!

This minds-on, hands-on, remote/virtual experience will provide you with scientific knowledge, inquiry-based, hands-on investigations, strategies for integrating literacy and science skills, and resources for teaching remotely or in the socially-distanced classroom.

How can you find time to teach science? Talking, reading, and writing are essential to all learning, including science. Literacy strategies can strengthen science teaching and science inquiry methods can strengthen literacy strategies. During this remote course, educators will explore how they can integrate science and literacy through inquiry-based learning remotely or in the classroom! Then investigate how to use inquiry and the Science and Engineering Practices to deepen students’ understanding of both science concepts and literacy strategies.

• Participate in hands-on, inquiry science investigations inspired and enhanced by literature.
• Explore using books, productive talk, and science writing.
• Learn strategies for integrating science, literacy, and discussion in ways that foster critical thinking, academic language, and meaning making.
• Shift your practice to teach your grade-specific science content by using literature to spark minds-on, hands-on investigations as you implement the Science and Engineering Practices.

This course will be offered remotely: you will be provided with a materials kit for the inquiry-based, hands-on investigations during the course.

Instructors:
Jeff Winokur, Education Consultant
Karen Worth, Education Consultant
Kathy Renfrew, Wade Institute Education Specialist

Registration Information

Dates:
Online Modules: January 8th - March 7th, 2021
Virtual Sessions: January 16th, 30th & February 13th (8:30 AM - 1:30 PM EST)
*Register by January 4th to ensure you receive your materials kit in time!

Cost: $350/participant. $300/participant if registering with 2 or more other teachers from your school or district.

PDPs and Graduate Credit: 25 PDPs are available without graduate credit. 2 graduate credits from Cambridge College and 45 PDPs are available for an additional $150.
